Summary

- Full-stack developer focused on Laravel, React, and LLM integration, with experience building and deploying systems for education, government, and AI automation. Creates scalable web applications and AI-powered tools with a strong focus on usability, performance, and practical solutions.

EDUCATION

- **Bachelor of Science in Information Technology** **(2021-2026)**
  Central Luzon State University (CLSU)

SKILLS

- **Languages & Core Technologies**
  PHP, Python, JavaScript, React, SQL
- **Frameworks & Libraries**
  Laravel, Livewire, React, Django, Tailwind CSS
- **Databases & Tools**
  MySQL, Git/GitHub, Composer, Node.js, XAMPP, Supabase, Packet Tracer
- **API & Architecture**
  REST API Design & Integration, OAuth / JWT Authentication, Web Application Architecture
- **AI & Automation**
  LLM Integration (OpenAI / Anthropic API /GEMINI API), AI Automation, RAG / Vector Databases, Prompt Engineering, Modern AI-Assisted Development
- **DevOps & Deployment**
  CI/CD Pipelines, Docker, Cloud Deployment (Vercel / AWS / Hostinger), Unit Testing / PEST, PHPUnit, Agile / Scrum
- **Soft Skills**
  Microsoft Office Suite, Troubleshooting, Hardware and Software Installation, Basic Networking, System Maintenance, File Management, Data Entry, Documentation, Team Collaboration, Communication Skills, Problem Solving, Time Management, Technical Support, Internet and Email Management, Computer Literacy, Presentation Skills, Adaptability, Attention to Detail, and Basic Database Management.

PROJECTS

- **Scholarship Portal (CLSU ERDT)** Link Website
  Built and deployed a live scholarship portal for CLSU-ERDT, helping digitize the full application and review process for hundreds of scholars in a real production environment.

- **Barangay Management System** Link Github
  Led full-stack development of a barangay governance system, eliminating paper-based records and enabling real-time data access for local government operations.
- **AIRA-LOGIX (Reports AI)** Link Github
  Built an AI-powered document processing platform using Laravel and Livewire that reads ICT request forms from DOCX files and images, automatically generates structured DOCX, XLSX, and CSV reports, and includes delivery tracking and daily task management features to improve team operations and visibility.

Significant Roles

- **Lead Developer** **Recent Projects**
  Academic and Community System Projects, Philippines
- **Lead AI Developer** **Recent Projects**
  AIRA-LOGIX (Reports AI)
- **Content Creator** **Ongoing**
  Technical and Educational Digital Content

EXPERIENCE

- **Management Information Systems Office (MISO)** **Internship**
  Intern / AI Developer Assistant
- **Freelance / Independent Projects** **Ongoing**
  Full-Stack and Laravel System Development

Global Certifications

- **CS50's Introduction to Artificial Intelligence with Python (HarvardX)**
- **TOPCIT IT Competency Certification (IITP)**
- **Junior Web Developer**
- **Kaggle: Data Visualization**
- **Kaggle: Pandas for Data Science**

References

- **Available Upon Request**
  Professional and academic references can be provided when required.
