Summary

- Full-stack web developer and designer building web applications with Laravel, React, and Next.js. Experience building custom management systems, administrative dashboards, and AI-assisted data workflows for academic institutions, local government, and independent projects. Focuses on clean interfaces, reliable code, and fast user experiences.

EDUCATION

- Bachelor of Science in Information Technology** (Class of 2026)
Central Luzon State University (CLSU)

SKILLS

- Languages & Core Technologies**
PHP, Python, JavaScript, TypeScript, HTML5/CSS3, SQL
- Frameworks & Libraries**
Laravel, Livewire, React, Next.js, Django, Tailwind CSS
- Databases & Tools**
MySQL, Git/GitHub, Composer, Node.js, XAMPP, Vercel
- Specializations**
Web Development & Design, Responsive UI/UX, AI Automation, Web Application Architecture, Digital Asset Design
- Soft Skills**
UI/UX Prototyping, Public Speaking, Creative Direction, Technical Writing, Brand Strategy

FEATURED WEB & SYSTEM PROJECTS

- PulseOS (Operations & Admin Dashboard)** [Live Demo](#) [Website](#)
Lead Developer. Built an operations console and admin dashboard in Next.js and Tailwind CSS to monitor system health, track earnings, and run automated AI workflows.
- AITO (AI 3D Talking Objects Studio)** [Live Demo](#) [Website](#)
Lead Developer. Created a React web tool that generates video scripts and character motion assets for video production.
- AIRA (AI Reports Automation)** [Link](#) [Github](#)
Lead AI Developer. Developed a web application using Laravel 12, React 19, and Gemini AI that reads uploaded service request documents and populates database records automatically.

- Scholarship Portal (CLSU ERDT)**
Live Site
Website

Lead Developer. Built CLSU's online scholarship application system, replacing paper forms with online submissions and reviewer tracking.
- Barangay Management System**
Link
Github

Lead Developer. Built a database system for barangay Management records, digitizing physical paper archives for instant record lookups.
- Viral Content Automation Script**
Link
Github

Developer. Wrote a Python script using the YouTube API to automate topic research, draft video scripts, and generate social media assets.
- Budget Planner Dashboard**
Link
Github

Developer. Built a React and Tailwind CSS expense tracker for monitoring monthly income, spending categories, and personal budgets.

SIGNIFICANT ROLES

- Lead Web Developer**
 Academic, Commercial, and Community Web Projects, Philippines
- Web & UI Designer**
 Custom Web Design, Digital Collateral & Frontend Development
- Lead AI Developer**
 AIRA-GEN (Reports AI)

EXPERIENCE

- Management Information Systems Office (MISO)**
Internship
 Intern / AI ASSISTANT DEVELOPER
- Freelance / Independent Projects**
Ongoing
 Web Development, Custom UI/UX Web Design & Laravel Applications

HONORS, AWARDS & CERTIFICATIONS

- IT Startup Winner:** 1st Place (IoT Hardware Competition)
- IRCITE Champion:** Video Editing & Digital Media
- CS50's Introduction to Artificial Intelligence with Python:** HarvardX Certified
- TOPCIT IT Competency Certification:** IITP International High Merit Participant
- IT Specialist in Web Development:** Pearson VUE Certified
- Kaggle Certified Specialist:** Data Visualization & Pandas for Data Science
